

i3CONNECT CAMERA 2 INSTALLATION MANUAL

SAFETY WARNING AND PRECAUTIONS

You must read and understand all the instructions before using the device to prevent damage or injury.

This manual contains the precautions and product usage instructions. Damage caused by failure to follow the instructions is not covered by the warranty. Please keep this manual properly.

Cleaning and Maintenance

- Clean this device only with a piece of microfiber cleaning cloth.
- Contact professional service personnel for all repair services.

SAFETY WARNING AND PRECAUTIONS

Prevent Product Damage

- This device is not waterproof; please keep it dry. If water enters this product, please shut it down immediately and contact the customer service centre according to the prompt provided before using it again.
- Never place this device and its accessories near burning flames or other heat sources, including direct sunlight.
- This device should be turned off and unplugged before lightning storms.
- Do not insert any sharp objects inside the device.
- Do not drop or hit the device to avoid damaging it.
- This device has a built-in lithium battery; charge it regularly. If it is not charged for a long time, the battery may not be able to charge.
- Never install this device in an enclosed space. Always leave at least 4 inches of space around the product for ventilation.

SAFETY WARNING AND PRECAUTIONS

Electrical Outlet Compatibility

Before connecting this device to an electrical outlet, please make sure that the power supply voltage matches the voltage value printed on the back or bottom of the product. Never connect the product to an electrical outlet when the voltage is different, as this could cause a short circuit or even cause the product to catch fire.

Prevent Injury

- Never place this device on a power cord or on another electronic device.
- If this product is transported at a temperature below 5°C, please unpack the product and wait until the temperature reaches room temperature before connecting it to a power outlet.
- This product comes with sharp objects. Please handle it carefully to avoid injury to the user, scratch damage to the appearance of the attached display/product, or damage to the internal parts of the product.

SAFETY WARNING AND PRECAUTIONS

**This device and its accessories may contain small parts.
Keep out of the reach of children.**

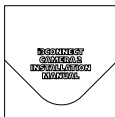

Recycling and Proper Disposal

- This device uses recyclable high-performance materials and components. Never dispose of this product with other household waste. Please follow local regulations on the sorting and collection of electrical products and batteries.
- Proper disposal of these products helps avoid potential negative effects on the environment and human health.

PRODUCT FEATURES

CAMERA INSTALLATION

AI ZOOM MODES

i3CONNECT Camera 2 has multiple zooming modes that recognise participants in the meeting and switches to the right mode to capture optimally. By default the 'Autoframing' mode is selected.

To change the AI zoom mode, go to the i3CONNECT Studio settings app on the i3CONNECT screen and select the desired mode.

AI ZOOM MODES

Fullscreen: Captures full view of camera, no zoom used.
Ideal for large audiences & auditoriums.

Auto-framing: Captures all people in the meeting room in one shot, even if they are not talking.

Voice tracking: Captures people who are talking in the meeting room. People who are silent will not be contained in the view.

Smart gallery: Will make a separate frame for each person in the meeting room and show these individual frames next to one another as a group. When there are more than 6 attendees, the view returns to Fullscreen mode. This mode only works with a max resolution of 1080p.

NOTE ABOUT AI ZOOM MODES

When no person is recognised, the view will zoom out to full screen. Changes in zooming level will take a few seconds, as this enables a more tranquil view when people are moving in the room.
